DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Loechl in view of Schock.

Loechl discloses a conveyor for moving gypsum boards, spray arms, base frame, a plurality of spray nozzles and pump system (see figures 1-3; col 3, lines 17-56).

Loechl does not disclose spraying arms with pivot mounting to pivot from operative positions.

Schock discloses pivot arms for spray heads (fig 1).

It would have been obvious to one with ordinary skill in the art to include pivot arms for spray heads because Schock teaches uniformity as desirable in the spraying art (col 1, lines 15-25).
